ARSHIP DID NOT FIRE ON THEODOSIA

ve Million Dollars In Property Is Destroyed At Odessa.

NIAZ POTEMKINE LEAVES PORT

ttleship Quits Harbor of Theodosia Before Arrival of Black Sea Fleet. Takes Supply of Coal from British Collier.

Theodosia, July 8.—The reports sent from Odessa to the London newspapers regarding the bombardment of Theodosia are untrue. Order is fully maintained in the town by the troops. Before leaving Theodosia the Kniaz Potemkine sighted a British collier which she followed seaward and from which she took a quantity of coal.

Losses Estimated at $5,000,000.

New York, July 8.—According to the Odessa correspondent of the Novosti, the total losses through the outbreak at Odessa are estimated at $5,000,000, says the St. Petersburg correspondent of the Times. The insurance offices refuse the payment of claim, alleging that the state is responsible.

The newspapers are not allowed to publish details of the doings of the Kniaz Potemkine, or even the proclamation issued by the crew guaranteeing the protection of foreign commerce.

St. Petersburg, July 7.—12:40 p.m.—The Kniaz Potemkine escaped from Theodosia before the Black Sea fleet arrived there from Sebastopol and as the fleet did not put into Theodosia, it is presumed that the ships are in pursuit of the Kniaz Potemkine. The advices received by the admiralty, however, are meager and most conflicting. It is considered possible that Ensign and Quartermaster Alexieff, who commands the Kniaz Potemkine, was advised of the fleet's coming and left Theodosia. At any rate it is clear that she coaled from a British ship which she subsequently released and then sailed away. The report says the course taken by the Kniaz Potemkine do not agree. Admiral Wierenius' chief of general staff of the navy informed the Associated Press that a report said he had sailed west in the direction of Livadia, leaving the impression that it is the intention of her crew to bombard the emperor's summer palace. Another rumor says that when the Kniaz Potemkine was last seen she was headed southeast as if bound for the Caucasus Littoral. This subsequently was supplemented by a report from Sebastopol that the Kniaz Potemkine has put into Tuapse, half-way to Poti, and had been captured in some mysterious fashion by soldiers.

The torpedo boat destroyer Smetlly, manned by a crew of officers and blue jackets, who volunteered to sink the mutineer, reached Theodosia several hours after the Kniaz Potemkine had departed and after hurriedly coaling, the Smetlly put to sea presumably in pursiut of the rebel battleship.

WOMAN EXPLORING LABRADOR.

Her Husband Died, but Wife Took Up His Undertaking.

North Adams, Mass. July 8.—Rev. James E. Sawyer, of Williamstown, has received a letter from Mrs. Leonidas Hubbard, now following the trail of her husband who died while exploring Labrador in which she has inadvertently met a Wilton Wallace, who was with her husband when he died and who is again exploring Labrador.

When Wallace returned to this country there was some friction between him and his dead companion's wife and when he had announced his intention of making a second trip Mrs. Hubbard started out herself, but kept her plans from Wallace. The latter states that at Gilesport, Wallace turned toward the Northwest river. Mrs. Hubbard remained to complete her final

MAYOR THOMAS AND COLLEAGUES WERE GIVEN A WARM RECEPTION

They Were Met at Railroad Station by Enthusiastic Citizens.

FIFTY-ONE VEHICLES IN LINE

Besides a Half-Hundred Bicycles and Many Others Who Were Honoring the Party as Pedestrians—Speeches at Band Stand—The Reception.

The people of Gainesville were again in demonstration Saturday, and stronger than Friday if such a thing was possible, for fifty-one carriages and other vehicles, about fifty bicycles and a hundred or more pedestrians, were assembled at the station of the Gainesville & Gulf railroad to welcome the Honorable Mayor W. R. Thomas, Attorney Robert McNamee and W. N. Wilson, the remaining members of the committee of Gainesville workers who had remained over at Tallahassee in order to close all details of the transaction in the matter of settling the University question.

The carriages, buggies and wagons, as well as the bicycles, were decorated in the Seminary colors, orange and black, and buttonieres and lapel streamers were prominent on the persons of all those who participated in the parade, as well as ninety-five per cent of the people of the city, regardless of age, sex or color.

It was a disappointment that the mayor and his colleagues did not arrive Friday evening, as was at first expected, as it was desired to give them a torchlight demonstration the like of which had never before been known in this State; and it was learned with great regret at the supper hour that the party would not return until Saturday morning. However, several patriotic men and boys insisted on a demonstration, and paraded the streets with their glaring torchlights, shouting for Gainesville and the University at regular intervals.

When the Gainesville & Gulf train reached this city Saturday morning, three hearty and enthusiastic cheers went up for the mayor and his committee, and when the carriage which was specially waiting for this distinguished official and his guests, which was occupied by members of the mayor's family, entered and drove away, the crowd lined up in procession, and the line of march was begun, the route being the same as on Friday. The procession was headed by Alderman Benson and Marshal Pinkoson in a buggy, who bore a banner upon which was inscribed. "Our Mayor; God Bless Him."

After having driven to the Seminary barracks and dormitory, the procession proceeded to the band stand, where a hundred vigorous and enthusiastic voices called for Mayor Thomas.

Mayor Thomas Speaks.

In compliance with this call Mayor Thomas responded, and was greeted by cheers from a thousand voices. When this had died away he made a few remarks regarding the work of the committee in the matter of this great victory. A strange but impressive coincidence was the fact that, while only twenty-four hours before Perry M. Colson had told the people from the same stand that Major Thomas was the most earnest, most faithful and most loyal worker he had ever seen, the mayor modestly stated that "he had done the best he could, but the great victory was due largely to the efforts of his colleagues." This brought a cheer, as those assembled seemed to realize and grasp the fact that this earnest advocate of Gainesville's rights, now that the work was done, was willing that the honor should rest with those who had so faithfully assisted him. By way of parenthesis it may be mentioned that every member of the committee, as ers, and the honor is to be evenly divided, as all did what they could.

Hon. Robert McNamee.

Hon. Robert McNamee was on the rostrum, and the calls for "McNamee! McNamee! Let us hear from McNamee," brought him to his feet in a short while.

It may be mentioned here that Bob McNamee has made himself solid with the people of Alachua county, if he was never solid before, as was demonstrated when he arose. He was given three hearty cheers which was enough to inspire the soul of any man, and which visibly affected the speaker. He made a fine talk of a few moments' duration, which was spent in eulogizing the committee in their earnest efforts, the people of Gainesville for their loyalty and educational patriotism, and the city generally as a desirable place in which to live, "because the people of Gainesville were the cleverest people as a whole on earth."

Mr. McNamee took occasion to impress upon his hearers the fact that the University of Florida, by act of the State Educational Board and the Board of Control, had been placed in Gainesville forever, and that the finest buildings in the State would be located here; that the people of Gainesville would have one of the finest colleges in the United States in which to educate the children of Florida and other States, and that in all, not only Gainesville, but the people of Florida should feel thankful and should congratulate themselves that the University is located here.

In conclusion, the speaker stated that in the wisdom of those who were in authority, it was deemed advisable to permit the holding of the next session of the University at Lake City, because of the fact principally that Gainesville could not properly take care of them, under the circumstances, as the buildings would not be completed in time. He assured the people that the selection as to location would be made in a few days, the architect would be here for the purpose of making plans, and as soon thereafter as the material could be placed upon the grounds work would begin. At the conclusion of his remarks Mr. McNamee was heartily cheered.

Mr. Wilson Cheered.

W. N. Wilson, a member of the committee and a very active worker all during the campaign, was with the party, and as the carriage arrived at the band stand three cheers were given him. Mr. Wilson was also loyal from a financial standpoint, as he was a member of the committee who signed to guarantee the money and land.

Banquet to Committee.

Saturday night a banquet was tendered to the committee at the girls' dormitory, East Florida Seminary, East Main street N., which was largely attended. Delicious punch was served by the ladies of the city, and altogether the evening was spent in a most enjoyable manner, the committee receiving the congratulations of a thousand or twelve hundred citizens, from the old resident down to the sweet little girl and interested boy, who expect to become University scholars. Several short talks were made, and a happier aggregation never got together than those assembled upon this occasion.

During the evening patriotic talks were delivered by Mayor Thomas, Hon. Robert McNamee, Syd L. Carter, Senator H. H. McCreary, Rev. S. B. Rogers and others.

Children Burned To Death.

Pittsburg, Pa., July 8.—Two children are dead, another is painfully burned and Mr. and Mrs. Charles Brandt, the Parents, are in a serious condition as the result of the explosion of an oil lamp at their home on Robinson Road.

Lake City Buildings Will be Used for University Temporarily.

THE PRESIDENTS WERE NAMED

Dr. Andrew Sledd Will be President of University, While Prof. Murphree Will Preside Over the Destinies of Female College.

The following report from Tallahassee, dated July 7, will prove of interest to The Sun readers:

One by one the members of the Board of Control are eliminating the difficulties thrust upon them in putting into practical operation the provisions of the Buckman law.

This afternoon the board named Dr. Andrew Sledd as president of the University of the State of Florida, and Prof. A. A. Murphree as president of the State Female College, each at a salary of $2,500 per annum.

The two presidents of Florida's leading institutions of learning have been asked by the Board of Control to suggest or recommend a faculty. They are now at work, and their lists will be submitted for the consideration of the members of the board within the next few hours. When these faculties shall have been agreed upon, together with those for the School for the Deaf and Blind and the Colored Normal School, the "rush work" before the Board of Control will be completed.

When in joint session this morning the members of the two boards took action regarding the temporary location of the State University.

At Lake City Next Term.

It was agreed that for the coming scholastic year the present university buildings at Lake City will be used. It was not deemed wise to attempt to move the delicate and valuable apparatus to Gainesville to put in a temporary building, but to continue the university work for another year at Lake City, so as to give the Board of Control time to get the buildings ready at Gainesville that instruments and other apparatus may be moved but once. This decision will also aid in many other ways, and there will be a practical continuance both at Lake City and Tallahassee of the work heretofore conducted and under the supervision of the same presidents.

School for Deaf and Blind.

At the joint meeting the Governor was authorized to appoint a committee of three to visit Lake City and ascertain whether or not the School for the Deaf and Blind was desired at that place, and also to proceed to St. Augustine and obtain a deed to the additional twelve acres of land in the event that the boards should determine to keep the school there permanently.

Governor Broward appointed Mr. Holloway of the State Board of Education and Messrs. Bryan and Adams of the Board of Control as such committee.

It is believed that Lake City will not ask for the school, in which event it will remain permanently in St. Augustine.

Tobacco Salesman Dies in Knoxville.

Knoxville, Tenn., July 8.—C. C. Dromgooe, manager of salesmen for the R. A. Patterson Tobacco company, of Richmond, Va., was found dead in his bed at the Cumberland hotel here this morning. He arrived here last night and intended to start on a vacation trip this morning. Heart affection is assigned as the cause.

Will Build Big Warehouse.

San Francisco, July 8.—It is stated that E. H. Harriman, with the co-operation of H. E. Huntington is preparing to build at San Pedro in the southern part of California, quays, docks and warehouses for the accommodation of steamships to ply between San Pedro, Hawaii, Japan and China and the Philippines.

ROOT IS APPOINTED TO CABINET OFFICE

Official Announcement Made By President Roosevelt.

SUCCESSOR TO SECRETAY HAY

It Is Announced that Mr. Root Will Accept the Portfolio of the State Department—He Will Give Up Entirely His Law Practice.

Oyster Bay, July 8.—Official announcement was made here today that Elihu Root has been appointed secretary of state.

The announcement is made today by authority of President Roosevelt in the following statement given out by Secretary Loeb:

"Elihu Root has accepted the tender by the president of the secretaryship of state. He will take the oath of office in a couple of weeks, but it will necessarily be some little time before he closes up his business affairs. He will not go to Washington permanently until some time in September."

President Roosevelt is much gratified at Mr. Root's acceptance. He is deeply sensible of the personal sacrifices made by Mr. Root in taking upon himself the burdens and duties of a member of the cabinet.

The decision of Mr. Root was reached finally on the president's special train during the return of the presidential party from Cleveland. For personal reasons entertained both by the president and by Mr. Root it was deemed desirable not to announce the decision publicly until the president had returned to Sagamore Hill. It was determined, therefore, that the official statement of the president's tender and Mr. Root's decision to accept it would be made today.

It is the intention of Mr. Root to assume the duties of secretary of state practically at once, although it will be perhaps two weeks before he formally will take the oath of office. His professional interests are so large that he will have to devote considerable time to a satisfactory arrangement of them before he goes to Washington to take permanent charge of the state department.

When he takes active charge of the department he will give up entirely his law practice.

LAW PUZZLES AUTHORITIES

Jim Crow Street Car Law Runs Up Against a Snag.

Nashville, Tenn., July 8.—The Tennessee street car law is proving a puzzle at Bristol, Tenn. Two-thirds of the car line is on the state line between Tennessee and Virginia, being in the middle of the state streets, dividing the cars lengthwise, thus putting one-half in Tennessee and the other half in Virginia.

The negro passengers in order to avoid the Jim Crow law will only have to occupy the Virginia side of the car, but the negro people on the Tennessee side are forced to occupy a certain space.

The situation is such as would probably not occur at any other point in the United States, since the state line is exactly in the center of State street and exactly in the center of the street car line.

Jordan's Statement Causes Decline.

New Orleans, July 8.—A statement attributed to President Harvie Jordan, president of the Southern Cotton association, in opposition to abnormally high prices for cotton affected the cotton market today and caused a decline of 16 points. October sold at 10.62 at noon, December at 10.56 and January at 10.77. The market opened an average of 5 to 7 points down.

Boys Return to Their Home.

Detroit, July 8.—Percy Denea, who was reported to be locked in a freight car that left Detroit last Tuesday has returned home. With two other boys he had entered the car voluntarily requesting another boy to lock the door. The three boys became homesick when they reached Niagara Falls and boarded a freight train for De

HE GAINESVILLE LIBRARY CONTEST

Large Vote Polled During the Past Week.

TOTAL VOTE FOR WEEK 45,949

The Twentieth Century Club Making a Very Fine Run—Kirby Smith Chapter Still Leads in the Race—Odd Fellows Make Big Gains.

With the end of the fourth week of the library contest, the voting is getting concentrated down to a less number, and this week there are only fifteen organizations that received votes. Voters would look over the list and pick out a favorite that was ahead, the contest would become more exciting. The Woodmen show up for the first time.

We would caution voters about marking their ballots as plain as possible and put the correct name on them. Several ballots were cast for "Public Library," and there is no such candidate for honors in the list. It was supposed by the person who counts the votes that it was intended for the Twentieth Century Club, and was so counted. At the end of the contest the committee that inspects the votes can do as it sees best in the matter.

We would caution those who have votes to hand in that they must be in The Sun office at least by 10 a. m. on every Saturday. They should be counted on each Friday evening.

The following is the vote up to date:

JOHN THOMPSON EXPLAINS.

Declares the Unfavorable Reports About Him Were Untrue.

To my friends, the public and the man who circulated unfriendly statements about myself:

There is hardly a man in the world but has an enemy.

I had business that required my absence from my home, and this enemy, taking advantage of my absence, did me the mortifying injustice of trying to slander me by circulating untruths about me. These stories were told to me by my friends when I came home, not believing them themselves. They were of that character that was derogatory to the interests of Gainesville in securing the location of the University at Gainesville.

I say to my friends, to the public, and particularly to the man who made these statements, that they are false and defamatory in every particular.

Gainesville is my hame, and no traduce of character can run me away from my home, and I will remain here at my pleasure. I am respectfully,

J. J. THOMPSON.

Gainesville, July 8th, 1905.

WOMEN CHARGED WITH PERJURY

They Attempted to Obtain Possession of Robert Cline's Fortune.

Chicago, July 8.—Mrs. Matilda Bender, and her daughter, Marie, have been arrested on charges of perjury and conspiracy in connection with their attempt to secure for Charlotte Bender, a widow, share in the estate of the late Colonel George T. Kline.

The estate for which the Benders were filing is valued at almost $2,000,000. The story which was told to Judge Cutting by Mrs. Bender and her daughter some months ago hangs on their contention that Robert Cline, now dead, and the dead millionaire were one and the same person. They declared that while posing as "Robert Cline, cattle buyer from Texas," he married Charlotte Bender.

During the proceedings before Judge Cutting and later before the grand jury, the supposed widow of the millionaire did not appear to testify, her mother and sister saying that she was being confined in an insane asylum.

Judge Cuttig refused to recognize the claims of Charlotte Bender, and recommended that the grand jury investigate. As a result the mother and sister of the claimant were indicted and the indictments kept secret until their arrest.

Fire Causes Panic In Court.

St. Louis, July 8.—A lighted match carelessly thrown on the floor of the criminal court of correction room, which had been previously covered with a disinfecting fluid which was inflammable, started a fire today that resulted in a general panic at the Four Courts building, but no body was hurt. The flames spread across the floor and up the walls rapidly. Persons in court rushed out and the prisoners in the cage frantically screamed and tried to break through the bars, fearing cremation. The fire was extinguished with little damage having been done.

Cheerfully Recommended for Rheumatism.

O. G. Higbee, Danville, Ill., writes, Dec. 2, 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction." 25c, 50c and $1. Sold by W. M. Johnson.

Epworth League Meets In Denver.

Denver, July 8.—The thousands of Methodist workers who are attending the seventh international convention of the Epworth League were astir soon after sunrise today and the morning watch meeting of the Trinity church was large and spirited. Departmental conferences and summer assemblies and schools occupied the remainder of the forenoon and were followed by numerous noon meetings for prayer and exhortation.

PAUS AND PINKSTER.

The Dutch Easter Time Festivals In the Mohawk Valley.

Next to New Year's day Paus and Pinkster were the more popular and generally observed holidays of the old Dutch in the Mohawk valley. Paus was Easter and Pinkster was Whitsunday. Pinkster was particularly a gala day, when young and old gave themselves up to jollity and boisterous fun. The joys of the day began in the morning with sports, outdoor games and contests and ended late at night with indoor games and dancing. There were "egg butting" and "riding at the ring." The latter sport was probably a rural adaptation of the tournaments of the days of chivalry. The necessary arrangement was a cord tied across the road just above the heads of men on horseback. From this cord was suspended by a short string a finger ring. Each horseman was provided with a short, sharp pointed stick about the size of a meat skewer, which was held between the first finger and thumb. The competitors were obliged to ride at full gallop under the cord and attempt to thrust their "lances" through the ring and carry it off three times. When one of the contestants had accomplished this he was chased by all the other contestants. If he succeeded in reaching the goal without being caught he was the winner. The prize was the payment by the other contestants of the bill for himself and his best girl at the dance and supper to be given in the evening. If, however, he was caught he was obliged to foot the bill for his captor and his best girl.

For a week before Pinkster the inhabitants, black and white, began to make ready for the festival by erecting booths of boughs from the thickly leaved trees and shrubs on a place in or near the village chosen because of its convenience and beauty. In these booths the tables were set with good things to eat and drink. Besides the "egg butting" and "riding at the ring," there were impromptu horse races, wrestling matches and occasional "scraps." The music for dancing was provided by the fiddle and jewsharp. Pinkster was a great occasion for the slaves. On this day they had unusual liberty to enjoy themselves according to their own ideas. One way of doing so was a dance, which was no doubt a relic of one of the many religious dances brought from Africa by the captured slaves. The music was obtained from a huge drumlike instrument four or five feet long and a foot in diameter, covered at either end by a tightly stretched sheepskin. This was held between the legs of the largest and oldest slave in the community. This drum he would beat with palm and fingers, and all the time he sang a wordless song, which as the excitement increased would become wild and weird and was accompanied by muscular contortions, wagging and twisting of the head and rolling of the eyes. One after another of the slaves would join in the dance as the spirit moved him or her to do so till the musician was surrounded by a ring of black and yellow twisting, wriggling, hysterical negroes, who for the time were thousands of miles away in the heart of superstitious Africa. One by one they would fall to the ground exhausted, when their places would be taken by others who were just beginning to feel the moving of the spirit. It was not unusual for this wild dance to continue through two days.—New York Tribune.

Several True Bills.

It is of course true that a jury, theoretically, is composed of a set of unprejudiced men, with open minds; still there may be occasions when a slight personal feeling invades their ranks. Such was evidently the thought borne in upon the tailor who, rising to state his case and having declined the services of a lawyer for reasons best known to himself, looked over the jurymen and then turned to the judge.

"It's no use for me to tell you about this case, your honor," he said dejectedly, "not unless you dismiss that jury and get in a new lot. There isn't a man among 'em but owes me something for clothes."

STATE NORMAL TO OPEN TOMORROW

Big Crowd of Teachers From Every Part of State Expected.

A FINE FACULTY IS SECURED

Some of the Most Noted Teachers of the State in Various Departments Have Been Secured, and the Chances Are That Term Will be a Fine One.

As already announced in The Sun, the State Summer Normal School will begin Monday in the East Florida Seminary barracks, and the possibility is that there will be a number of students. While none have so far arrived, several are expected in tomorrow and during the week, and before Saturday it is believed that quite a number will be in attendance.

This school will be open to all teachers in the State, and a most competent faculty has been appointed in the various departments, including Captain Geo. M. Lynch and Prof. W. L. Floyd of this city.

The school term will be marked with unusual interest, owing to the fact that a higher standard of education will be required under the new Buckman law.

All students of the East Florida Seminary, particularly of the Sophomore, Junior and Senior classes, will be qualified to enter the normal classes. This will give those who desire to prepare for the University classes a golden opportunity to review studies they may be deficient in.

A large attendance is desired.

AT THE CHURCHES TODAY.

Rev. John G. Anderson at Presbyterian Church—Union Service in Evening.

Services will be observed at the various churches this Sabbath as follows:

At the First Presbyterian Church Rev. John G. Anderson of Tampa, a noted divine of that city and pastor of the First Presbyterian Church, will deliver the sermon in the morning, the service beginning at 10:30. Dr. Anderson is an eloquent and impressive speaker, and those who attend this service will be well repaid. Sabbath school will be held at this church at 4 o'clock this afternoon, but there will be no evening service, owing to the union service at the Methodist church, to which the congregation is invited.

FREE ICE WATER.

Marshal Pinkoson Secured Subscriptions to Pay for a Ton of Ice.

Marshal Charles Pinkoson, with a commendable spirit, disliked very much to see the good people of this city and those who come here as visitors deprived of the privilege of a free glass of refreshing ice water, with the result that he just canvassed the city for funds sufficient to pay for a ton of ice, and the following citizens paid 25 cents each:

L. W. Pennell, Geo. W. Hyde, Chas. Pinkoson, J. M. Rivers, W. L. Hill, W. R. Row, W. B. Taylor, A. M. Cushman, J. D. Matheson, J. M. Dell, W. O. Tison, J. P. Bauknight, L. L. Hill, W. L. Beck, Sol Warren, Wm. Bradford, G. T. Kennard, W. T. Shands, E. A. O'Neill, W. W. Avera, E. E. Cannon, Geo. K. Broome, H. G. Mason, Geo. I. Doig, W. S. Dorsey. R. B. Livingston of the Diamond Ice Company donated 300 pounds of ice.

The public will appreciate the generosity of these citizens, as it shows a spirit of enterprise which cannot help but win out in the end.

BLACKMAILER IS KILLED.

Member of "Black Hand" Shot Down and Two Others Wounded.

New York, July 8.—One member of a self styled "Black Hand Society" of three men who had attempted to collect $100 from Pietro Caputon, a saloon keeper of Mamaroneck, was shot and instantly killed by Caputon, and the two others were wounded, but escaped. First, however, they probably made good their threat to kill Caputon, as he is fatally stabbed. For several months Caputon has been receiving letters demanding money. One letter said:

"If you don't give us $100 by July 5, we will kill you."

He paid no attention to the threat. Today three alleged "Black Hand Society" men appeared in the saloon and demanded the money. While Caputon was serving them with drinks, one of them, "Big Pietro," leaned over the bar and stabbed the proprietor in the neck and slashed him across the face. Though almost blinded, Caputon crawled to where he had a double-barreled shotgun and shot and instantly killed "Big Pietro." Caputon fired twice more after reloading his gun, but the other men, though wounded, managed to escape.

Farmer Heir to $55,000,000.

New York, July 8.—Thomas O'Keefe a Greentown, N. Y., farmer, has learned that he is one of the heirs to a fortune of $55,000,000 supposed to have been left by Dennis O'Keefe, his cousin, who died some years ago in Texas. The information came from a lawyer in Ireland, who had been searching for heirs in the neighborhood of Kibush, Ireland, where Dennis O'Keefe lived until 1894, when he sailed for America. Thomas O'Keefe is about 66 years old. He has placed his affairs in the hands of Douglas Conklin, cashier of the Bank of Huntington.

Mrs. Dodge Weds English Lord.

Sioux Falls, S. D., July 8.—Mrs. Flora G. Dodge, formerly of New York city, and Hon. Lionel George Guest have been married here. The bridegroom is the fourth son of Lord Wilburne of England, and cousin of the Duke of Marlborough, Duke of Rexburghe and Winston Churchill. The wedding ceremony was performed by the Rev. J. N. Hutchinson, pastor of the first Presbyterian church. Mr. Guest and his bride immediately departed for the east. They will make their home on an island in the St. Lawrence river near Montreal.

World's Most Effective Explosive.

New York, July 8.—That a 12-inch shell loaded only with a small charge of dunnite, the world's most effective explosive, will crumple in the side of the heaviest armor clad vessel, although the shell falls short of its mark by 2[illegible] has just been demonstrated at the beginning of a series of tests at the government proving grounds at Sandy Hook.

LACQUER WORK.

It Is Seen In Its Perfection Only In China and Japan.

Lacquer work is seen in its perfection only in China and Japan. The Chinese master of the art, who alone holds many of its secrets, lives and works in Pekin. Miss Eliza Scidmore, in the Chicago Tribune, writes of a visit to his shop. In that dry climate away from the sea there are more difficulties in managing the lacquer than in Japan, but this expert in his stone floored, heavy walled and roofed house manages to maintain an even temperature and to get moisture into the air by constant sprinkling.

Mixed lacquers—thick, sticky liquids like honey or molasses—are kept in covered crocks or bowls, and the workmen apply them with thin blades or brushes that distribute this even washes over the wooden foundation of the object that is being coated.

The surface of a box, for example, is coated over with dark green lacquer and put away to dry in a dark cupboard the sides of which are constantly sprinkled with water. After drying for a day in the moist air another coat is applied, and it is again put into the damp cupboard to dry. This continues until the object has been coated fifty times with the dark green lacquer.

The general outline of the design which is to be raised in relief above the dark ground is drawn, and the groundwork carved over with fine wave and geometrical designs. Then successive coats of red lacquer are applied, and gradually little islands of scarlet appear above the green level.

Eighty coats of red lacquer are put in and dried, and then the outlines of the flowers or figures are sketched on and the relief ornament carved out. Slowly and patiently the Chinese workmen chip away and cut away into the quarter inch of red substance, which is only about as hard as cheese. As the thin little chisel cuts under a tiny flower until it rests in relief upon green leaves one admires the skill and sure touch that work out all the exquisite modeling of the delicate petals. Even a tiny tray no larger than the palm of one's hand represents six months of work with its 200 coatings and its slow, careful carving.

A Scotch Superstition.

There used to be and may be yet a superstition in Scotland to the effect that one fights death by putting pigeons at a sick person's feet and that a husband can get rid of his wife if he will only build a dovecot. Miss Constance Gordon Cumming in her book of "Memories" tells of a Sir Robert Gordon of Gordonstown who annoyed his wife, whom he hated, by trying the latter remedy. Miss Cumming says: "Whatever hope Sir Robert may have entertained of expediting the death of Dame Agnes, he failed signally, though he succeeded in making her life so miserable that she left Gordonstown and went with two of her sons to live at Pitgaveny, beside the Loch of Stynie, whereupon her loving spouse devised a very remarkable means to avoid being compelled to make her an allowance for ailment. As he sat down to every meal he sent a servant to Lady Gordon's deserted apartments to summon her. Thus was Lady Gordon 'called to her meals!' When at length he was legally compelled to grant her maintenance he assigned to her use the produce of certain outlying fields, on the verge of which (or, as the old record says, 'on Lady Gordon's extremities') he built one of his great dovecots with intent that the hungry birds should feed at her expense."

Bent Her Double.

"I knew no one, for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Guaranteed to cure stomach, liver and kidney disorders; at all drug stores; price 50c.

PAUL JONES' BODY ON WAY TO AMERICA

Remains Placed On Board A United States Warship.

FRENCHMEN HONOR DEAD HERO

Ambassador Porter, Who Did Much to Find Remains of Naval Hero, Sails Also for Home—American Sailor Dies at Cherbourg.

Cherbourg, July 8.—The funeral train bearing the body of Admiral Paul Jones and 500 American sailors and marines arrived here from Paris at 7:30 a. m. An enormous crowd surrounded the railroad station and witnessed the removal of the body to a mortuary chapel erected on the wharf of the American steamship line. The chapel was beautifully decorated with palms, flags and escutcheons from the naval arsenal. Many French officers took part in the ceremonies. The American sailors and marines were drawn up in battalion from facing the Twenty-fifth regiment of French infantry. The body was borne between the saluting French and American line to a catafalque where it was covered with flags and flowers, the band of the United States flagship Brooklyn playing the national anthem. The townspeople then defiled before the coffin respectfully uncovering as they did so. The ceremony of transferring the body of the admiral to the flagship at noon and the squadron will sail at 5 o'clock in the evening for the United States.

General Porter Sails for Home.

Paris, July 8.—General Horace Porter today left Paris for Cherbourg, where he will sail for New York on the steamer Deutschland this evening. A number of officials and friends accompanied the general to the train and gave him a notable expression of esteem on the termination of his long service as ambassador to France.

Sailor Buried in France.

Cherbourg, July 8.—A man named Rogers, belonging to the United States cruiser Chattanooga, died of pneuritis last night and was buried today in the municipal hospital cemetery.

QUARANTINE NOT SO RIGID.

Cargoes From the Tropics May Not Be Detained Long.

Mobile, Ala., July 8.—The quarantine board of Mobile today agreed to reduce to four days the time of detention of vessels from an infected port, time to count from leaving said port. This was at the request of tropical fruit importers. Board ruled also that the crews of such vessels be not allowed to come on shore until five days have elapsed from port of departure. This is the first time a quarantine rule has recognized that cargoes do not carry infection, and that only sick human beings must be guarded against. It is thought to be the beginning of a policy that will lead to removal of all detention in the delivery of cargoes from the tropics, crews, however, to be subject to detention and surveillance.

CHOLERA INFANTUM.

Child Not Expected to Live from One Hour to Another, But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by all druggists.

It is also a sure specific for pain in the back or under the shoulders. THE NEWS FROM WALDO.

Interesting Budget of News from That Lively Burg—Personals.

Waldo, July 8.—E. R. B. Kite is indisposed. His numerous friends and acquaintances hope for his speedy restoration. For the present Truman Kite is in charge of the yard at night.

T. O. Kennard, proprietor of Waldo's livery stables, lost a valuable horse Thursday night by colic.

Engineer J. H. Ingram of the Cedar Key local is spending a few days at the home of his younger days in Georgia.

The watermelon crop in this section has considerably exceeded the demand this season. Growers do not ship melons from this point—took their lessons and their medicine years ago.

Mr. Safford of South Dakota has been on a visit to Waldo, making final disposition of the effects of his brother-in-law, the late J. C. Hall. Mr. Hall left insurance amounting to $6,100 as a legacy to his only daughter. The little girl is now in South Dakota, the former home of her parents.

Dr. Maines has recently located in Waldo for the practice of his profession.

After an absence of a year or more M. I. Rice, the jeweler, has returned with his family to Waldo for good or better, bad or worse. Mr. Rice went to Mexico to seek his fortune, and was fairly successful in a business sense; but every time a current struck his "think wire" the switchman would cut in "Waldo," and—a yearning yawn! To be plain about the matter, he put the skates on and "lit a rag" for these parts. No fatted calf to slay, but Waldo hugs the prodigals to her placid bosom and welcomes them, just as she will continue to do to all wanderers that live to return.

Mrs. Dr. P. D. Hicks is convalescing after a protracted illness.

Waldo regrets to lose as citizens R. W. Campbell and family. Mr. Campbell was one of the early settlers of the town, and it was not without regret that he parted from the scenes and associations of many years. He has sold his property at Waldo and is now a citizen of Arcadia. We occasionally lend out some of our good people and get them back with interest.

The Steamer Alert, plying between Waldo and Melrose, has recently undergone a thorough overhauling, and has resumed her regular trips.

Waldo sends greetings and congratulations to Gainesville on her signal triumph over strong opposition in the acquisition of the University. It marks a noteworthy achievement in the history of a progressive little city.

Americans Want To See Sultan.

New York, July 8.—For the first time since Raisuli's raids on the road from Tangier to Fez two American tourists have undertaken the journey to the Moorish court by direct overland route, says the Tangier correspondent of the Herald. They are James Roosevelt, a relative of the president, and J. C. White, son of the American ambassador to Italy. They are bearers of a letter of introduction to several court dignitaries.

Will Interest Many.

Every person should know that good health is impossible if the kidneys are deranged. Foley's Kidney Cure will cure kidney and bladder disease in every form, and will build up and strengthen these organs so they will perform their functions properly. No danger of Bright's disease or diabetes if Foley's Kidney Cure is taken in time. J. W. McCollum & Co.

Will Climb Mount Ranier.

Portland, Ore, July 8.—Several members of the Appalachian club of Boston, who will join the Sierras and Mazamas in the ascent of Mount Ranier, have arrived and more are expected tomorrow. Great interest is manifested in the expeditions to Ranier, and the climbers are coming in large numbers. There will be 28 from the Appalachian club and 105 from the Sierra club of California. The Mazatmas will turn out 75 strong. The excursion party will leave here July 14 for Tacoma whence the start will be made, the next day for Mt. Ranier.

Big Railroad Combination.

Ottawa, Ont., July 8.—A Winnipeg dispatch says there is a rumor to the effect that a big scheme is being engineered by James J. Hill to amalgamate the Grand Trunk, Great Northern, Northern Pacific railway systems. It is even held that the scheme includes the incorportion of the International, thus making possible the operation of two trans-continental lines, utilizing all the roads mentioned and the proposed extension of Mr. Hill's road, the V. V. and E. British Columbia.

Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." J. W. McCollum & Co.

Fumes of Gas Kill a Boy.

Chattanooga, Tenn., July 8.—Warner Carr, aged 17 years, was found dead and two other boys, Floyd Long and Bob Ross unconscious from the effects of inhaling the fumes from the Citico furnace early today. All three boys came from Knoxville, yesterday, and went to sleep near the furnace. Long is in the hospital and will probably recover, while Ross has entirely recovered.

Negroes Form Labor Trust.

Lexington, Ky., July 8.—Negroes are reported to have entered into a combination here and agreed not to work in harvest fields for $1.50 a day, the price offered by farmers. Wheat is going to waste for lack of labor to harvest it. Three negro men, known to have refused offers of work in harvest fields, were arrested for vagrancy and sent to the workhouse. Farmers are taking steps to procure Swedish help.

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propogates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Now let us get our books ready and make up our minds to go to school and be good.

With Germany making loans of money to Japan, it is no wonder Russia is anxious for peace.

Elihu B. Root will enter upon his duties as Secretary of State about the first of September.

The people of Marion county will never consent to vote money for a new court house, judging from the past.

With the University, the Bible Conference and the Chautauqua, we will be compelled to build a new hotel to accommodate the people.

We can assure the people of the State that the people of Gainesville will do everything within her power to make the University a success.

The Texas cyclones are getting too frequent to be inviting to people to locate in that State. The last one had a total of 26 killed and many seriously injured.

The idea that the Santa Fe Railroad Company violated the law in regard to rebates, but that the officers should not be held responsible, if held good, would clear many a criminal act.

Paul Jones was taken for the first time by about 500 men of the United States navy Thursday. They waited a long time to be sure he was dead, before they undertook to take him.

A more liberal interpretation of the Chinese exclusion act on the part of President Roosevelt may mean a more liberal patronage from the Celestial Kingdom. Their money is all right, as it has holes in it so it won't hold microbes or any taint.

The analyses that have been made of the waters of Boulware spring have shown it to be the purest of any in the United States unless it be that of Poland Spring, Maine, and it stands next to that. When any one tells you that the water used in Gainesville is impure, wink at him.

After expressing a genuine feeling of gratification in the selection of Gainesville for the location of the University, The Tampa Tribune says: "All this section of the State will join with The Tribune in expressing gratification that its claims have been recognized to a share of the benefits of the new educational deal and all Florida will join with Gainesville in building up a State University which will be a credit and an honor to the State."

No city in Florida has had a more healthy growth in the past two years than Gainesville. The streets and sidewalks have been improved in many parts of the city, new business buildings have been erected, many handsome residences have been completed and more would have been, only for lack of material. Many more residences will be put up between now and the end of the year. We are just growing—there is no boom.

HON. W. M. HOLLOWAY.

Among the many friends throughout the State to whom we feel obligated, there is none who is more deserving of our honest esteem than State Superintendent of Public Instruction W. M. Holloway, and his devotion to Gainesville has shown that although he has gone from our midst into the State at large, he does not forget his old friends.

During his residence here he became familiar with the people and their sentiments, and although he has been away for some time and had an opportunity to become familiar with the sentiments of nearly every locality in our great State, he turns to Gainesville as the city best suited for our State educational institutions to be located, regardless of any political preferment.

In his supervision of the State schools he is ever watchful of their best interests, always encouraging the ablest teachers and using all means in his power to place Florida at the head of every Southern State in the matter of education.

Mr. Holloway is always watchful of every method that will aid in building the most solid foundation for our school system, and in these times, when new methods are being advanced each year, it is no small tax to keep an eye on the workings of our entire State and prevent any retrogade movement. But he has done all this and also kept up the advance with credit to the state and himself, winning much praise for the school system of Florida.

THE WEALTH CROP.

Writing early in April with the object of inculcating caution with regard to speculative operations, we called attention to the fact—sometimes forgotten—that all wealth comes out of the earth, and that the fate of the growing crops would be determined very largely in the ensuing four months, says The Wall Street Journal. More than half that time has gone by and it is now clear that the prospects favor abundant crops. The wealth crop of the United States—if we may use the word—consists of plants, animals and minerals. Leaving minerals out of the question and considering only plants and animals, it appears that every year the earth produces for the people of this country real wealth to an amount of between $4,000,000,000 and $5,000,000,000. For instance, what are known as the cereal crops are worth about $2,000,000,000 a year, of which corn accounts for one-half. Cotton, tobacco, hay, flax and wool accounts for at least another $1,250,000,000. Garden truck, fruit and farm animals bring the total well over $4,000,000,000 a year.

This is the foundation of all business of the world. Man must be fed three times a day or thereabouts, whatever happens. Gold is no use to him, coal is no use to him, iron ore is no use to him, railroads are no use to him until he is fed and clothed. The annual yield of food by mother-earth is the source of all industry. Abundance of yield means good times and vice versa.

It is, therefore, important to note that all now promises well from this point of view.

The bonding election at Marianna, July 5th, was carried by a majority of 25. This means an electric lighting plant, new school house, extension of waterworks and new town hall. Success to Marianna.

The Leesburg Board of Trade will make an effort to induce enterprises to locate in that city. The people of that burg are wide awake.

The Tampa Board of Public Works now meets at the Tampa Bay Hotel. Nothing slow about Tampa.

THE MILK SUPPLY.

A distinguished Danish scientist, in a recent exhaustive discussion of a pure milk supply, insists that the milk supply of a modern city is almost, if not quite, as important a factor as the water supply, and argues that the ratio of deaths among infants has been in direct proportion to the ease or difficulty with which a supply of fresh milk is obtainable. He presents many interesting facts in connection with the abuse of milk. Adulteration of milk is prevented as far as possible, but the fact that so much milk is required, and that it is transported over considerable distances, makes regulation difficult. He also furnishes the interesting information that, from contagious diseases mainly spread by milk, the well-to-do suffer most, since they are the greatest consumers of milk. Consumers who get their milk day by day from rightly conducted dairies are practically proof against contagion. Flies are the real carriers of contagion, and from contact with these, milk should always be carefully protected.—Boston Globe.

Aged Negro Executed.

Hopkinsville, Ky., July 8.—George Holland, an old negro, was hanged here today for the murder of two years ago of an unknown white man whom he found asleep by the roadside near Pembroke, Ky. Eight other negroes who were convicted of participation in the murder were given life sentences.

Projection Discovered on Mars.

Cambridge, Mass., July 8.—A telegram has been received at the Harvard college observatory from Professor Lowell at Flagstaff, Ariz., stating that there was a projection on Terminator Mars on Sunday near Propotolis, position, angle of 19 degrees.

PIMPLES

"I tried all kinds of blood remedies which failed to do me any good but I have found the right thing at last. My face was full of pimples and blackheads. After taking Cascarets they all left. A FLOOD OF NEW BILLS.

The Georgia Legislature is Getting Down to Business.

Atlanta, July 8.—Another flood of new bills reached the desk of Clerk Boifeuillet in the house. Many of these are important and interesting measures.

Mr. Richardson, of Houston, introduced a bill to amend the constitution so as to increase the number of state senators from 44 to 75. Under this amendment, Mr. Richardson proposes to give the five most populous senatorial districts three senators; the 21 next in population two senators each, and the remaining 18 districts one senator each, making a total of 75.

In the Senate.

A 40-minute session of the senate was held yesterday, the introduction of new bills, action on several resolutions and confirmation of the appointments transmitted to the senate by the governor Wednesday being the only business transacted.

Among the interesting new bills introduced was one by Senator Whatley, of the thirteenth, which, if passed, will require all nominees for office to file with proper authorities within 30 days after election an itemized statement of all campaign expenses.

Senator Hogan, of the twenty-ninth, introduced a bill which, if passed, will amend the act establishing the department of agriculture, so as to provide for the employing of veterinary surgeons for the treatment of infectious and contagious diseases among cattle when the disease has gotten beyond the power of the owners.

SHOT FOR TALKING TO WOMAN.

Atlanta Fireman Seriously Injures a Salesman—Claims Self-Defense.

Atlanta, July 8.—Thomas Giddens, a salesman who lives at No. 445 Central avenue, was shot and seriously wounded by W. A. Pope, a member of the fire department. The two men met and Pope drew a pistol and fired four shots, one of which tooff effect in Giddens' jaw.

Two hours after the shooting Pope was arrested and taken to the police barracks. He declined to say anything about the shooting except that he had shot in self-defense.

Giddens could talk but little and he wrote on a slip of paper:

"I was shot just after I had left Mrs. Pope."

According to Chief of Police Jennings, Pope made a statement in which he declared he was watching his house just before the shooting occurred. He says he saw Giddens and Mrs. Pope meet on the sidewalk and greet each other in an affectionate manner. He then walked forward and spoke to Giddens; when he did this he says Giddens made a movement as if to draw a gun and Pope fired upon him.

Tragedy in South Georgia.

Tifton, Ga., July 8.—Elijah Thompson, a young man employed at the shingle mill of R. T. Ford, in Irwin county, a few miles north of Ty Ty, was shot and killed by Roby Williams, also white. Accounts of the killing are that the two men quarreled and that each went after a weapon; that Thompson had a pistol and Williams returned with a winchester rifle. Thompson, it is said, began firing his pistol without result, and Williams then took careful with his rifle and shot Thompson through the heart. Thompson was a young man without family. His parents live in Colquitt county. His remains were buried at Ty Ty today.

Kentucky Murderer Hanged.

Owensboro, Ky, July 8.—After a futile attempt at suicide, Robert Mathley was hanged at Sunrise in the jail yard here for the murder of Emma Watkins and James Gregson. The crime was committed June 26, 1904. Jealousy was the cause. Mathley, on the scaffold, declared that a woman swore his life away. During the night Mathley tore the veins in his arms and nearly bled to death before his attempt to commit suicide was discovered. He was forty years of age and a contractor.

Germany After Insurance Companies.

Berlin, July 8.—The imperial supervisors of finance for private insurance companies has demanded of the Equitable Assurance Society and Mutual Life insurance companies of New York that they declare by Aug. 1 in what manner they propose separating their premium reserves on German policies from the general reserves and how they intend to invest them. The amounts affected are $7,500,000 in the case of the Equitable and $5,250,000 in the case of the Mutual. The steps taken have no connection seemingly with the present Equitable developments, but are taken with the view of carrying out the provisions of the German insurance law of 1901.

Drowned Baby in Chicago River.

Chicago, July 8.—Mystery surrounds the identity of a well dressed man who has thrown a six-months-old baby into the north branch of the Chicago river near the Webster avenue railroad bridge. The baby was drowned and its body was recovered by the bridge tender, who witnessed the act and fished the baby out with a pole. Two men saw the deed, but the child murderer escaped, although an attempt was made to catch him. The only clew the police have to work on is a description of the culprit furnished by the witnesses. He is believed to be the father of the child.

The Boss Worm Medicine.

H. P. Kumpe, druggist, Leighton, Ala., writes: "One of my customers had a child which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 119 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. Sold by W. M. Johnson.

Huntington Buys Whole Town.

Los Angeles, Cal., July 8.—A large deal in Beach property has been consummated, it is said, whereby for a consideration which is not made public, but which is known to amount into the thousands of dollars, Henry Huntington has purchased outright the holdings of the Redondo improvement company, the corporation which established that Beach resort. The effect of the deal is that Huntington has purchased the town of Redondo. The tract held by the Rendondo Improvement company consists of nearly the entire town.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars' outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by all druggists.

To Start Big Iron Mill.

Sharon, Pa., July 8.—It was anounced officially today that the company's continuous sheet mill of the American sheet tin plate company at Sharon will be placed in operation next week. The mill is one of the most complete in the country and represents an outlay of about $1,500,000. It was built three years ago, but never operated. About 500 men will be employed.

Powers Case in Federal Court.

Louisville, July 8.—A special from Maysville, Ky., says that Judge Cochran, of the United States district court, has taken jurisdiction in the Caleb Powers case. This means that the case will be tried in the federal court.

Good for Stomach Trouble and Constipation.

"Chamberlain's Stomach and Liver Tablets have done me a great deal of good," says C. Towns of Rat Portage, Ontario, Canada. "Being a mild physic the after effects are not unpleasant, and I can recommend them to all who suffer from stomach disorder." For sale by all druggists.

Reciprocity In Business.

The owner of the Makepeace flour mills looked sternly at the provision dealer, who had for some years supplied the wants of his household.

"Those last apples you sent us were good," he said, with a keen eye fixed on the other man's face, "but they were in undersized barrels, my wife tells me, smaller than ever before. She says that the three barrels would scarcely make two and a half of the proper size. How do you account for it?"

"I can't," said the provision dealer, with apparent distress of mind. "I swan I can't! I just had my wife send me down three of your barrels that we've been getting flour in and just packed the apples in and headed 'em up with burlap, for says I to her, 'I believe in reciprocity, and I'm bound he shall have just as good measure of apples as we get of flour,' I says. Now, don't it beat all?"

The Caves of Kentucky.

Kentucky possesses in the Mammoth cave one of the natural wonders of the world; but, while this is the largest of its caverns and, so far as known, the largest in the world, there are hundreds of others of inferior but still of great size. In Edmonson county alone there are said to be more than 500 caves and, in addition, 4,000 sink holes of various sizes and depths. In Colossal cavern, discovered in 1895, what is believed to be the largest stalagmite in the world has been named "Henry Clary's monument." It is ninety feet high and thirty feet thick at the base. The cavern is only about a mile and a half from the the great Mammoth cave and is said to be in some respects even more wonderful than the latter, though not so large.

STRIKE LIKELY TO SPREAD.

Drivers of Baggage and Parcel Wagons in Chicago May Quit.

Chicago, July 8.—A spread of the teamsters' strike on baggage and parcel companies was possible today as a result of the action of the teamsters' joint council in directing all baggage and parcel delivery wagons to refuse deliveries to strike-bound concerns.

While the joint council was in session the department store drivers' union voted overwhelmingly to continue the strike indefinitely. Action concerning deliveries by the express companies was taken as a result of the announcement by Judge Holdom today that he would issue injunctions against compelling them to deliver goods to "struck houses." Although the express companies had been endeavoring to prevent a clash with their drivers it was believed they could not avoid asking them to make deliveries to strike-bound firms. The firms that would be affected by the injunction employ about 45 drivers. The joint council also decided to send out 2,000 strikers today to compel union teamsters always to make contributions to the strike fund.

THE BALLOT BOX

A FLOOD OF NEW BILLS.

The Georgia Legislature is Getting Down to Business.

Atlanta, July 8.—Another flood of new bills reached the desk of Clerk Bolfeuillet in the house. Many of these are important and interesting measures.

Mr. Richardson, of Houston, introduced a bill to amend the constitution so as to increase the number of state senators from 44 to 75. Under this amendment, Mr. Richardson proposes to give the five most populous senatorial districts three senators; the 21 next in population two senators each, and the remaining 18 districts one senator each, making a total of 75.

In the Senate.

A 40-minute session of the senate was held yesterday, the introduction of new bills, action on several resolutions and confirmation of the appointments transmitted to the senate by the governor Wednesday being the only business transacted.

Among the interesting new bills introduced was one by Senator Whatley, of the thirteenth, which, if passed, will require all nominees for office to file with proper authorities within 30 days after election an itemized statement of all campaign expenses.

Senator Hogan, of the twenty-ninth, introduced a bill which, if passed, will amend the act establishing the department of agriculture, so as to provide for the employing of veterinary surgeons for the treatment of infectious and contagious diseases among cattle when the disease has gotten beyond the power of the owners.

SHOT FOR TALKING TO WOMAN.

Atlanta Fireman Seriously Injures a Salesman—Claims Self-Defense.

Atlanta, July 8.—Thomas Giddens, a salesman who lives at No. 445 Central avenue, was shot and seriously wounded by W. A. Pope, a member of the fire department. The two men met and Pope drew a pistol and fired four shots, one of which took effect in Giddens' jaw.

Two hours after the shooting Pope was arrested and taken to the police barracks. He declined to say anything about the shooting except that he had shot in self-defense.

Giddens could talk but little and he wrote on a slip of paper:

"I was shot just after I had left Mrs. Pope."

According to Chief of Police Jennings, Pope made a statement in which he declared he was watching his house just before the shooting occurred. He says he saw Giddens and Mrs. Pope meet on the sidewalk and greet each other in an affectionate manner. He then walked forward and spoke to Giddens; when he did this he says Giddens made a movement as if to draw a gun and Pope fired upon him.

Tragedy in South Georgia.

Tifton, Ga., July 8.—Elijah Thompson, a young man employed at the shingle mill of R. T. Ford, in Irwin county, a few miles north of Ty Ty, was shot and killed by Roby Williams, also white. Accounts of the killing are that the two men quarreled and that each went after a weapon; that Thompson had a pistol and Williams returned with a winchester rifle. Thompson, it is said, began firing his pistol without result, and Williams then took careful with his rifle and shot Thompson through the heart. Thompson was a young man without family. His parents live in Colquitt county. His remains were buried at Ty Ty today.

Kentucky Murderer Hanged.

Owensboro, Ky, July 8.—After a futile attempt at suicide, Robert Mathley was hanged at Sunrise in the jail yard here for the murder of Emma Watkins and James Gregson. The crime was committed June 26, 1904. Jealousy was the cause. Mathley, on the scaffold, declared that a woman swore his life away. During the night Mathley tore the veins in his arms and nearly bled to death before his attempt to commit suicide was discovered. He was forty years of age and a contractor.

The Diamond Cure.

The latest news from Paris is that they have discovered a diamond cure for consumption. If you fear consumption or pneumonia, it will, however, be best for you to take that great remedy mentioned by W. T. McGee of Vanleer, Tenn. "I had a cough, for fourteen years. Nothing helped me, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which gave instant relief and effected a permanent cure." Germany After Insurance Companies.

Berlin, July 8.—The imperial supervisors of finance for private insurance companies has demanded of the Equitable Assurance Society and Mutual Life insurance companies of New York that they declare by Aug. 1 in what manner they propose separating their premium reserves on German policies from the general reserves and how they intend to invest them. The amounts affected are $7,500,000 in the case of the Equitable and $5,250,000 in the case of the Mutual. The steps taken have no connection seemingly with the present Equitable developments, but are taken with the view of carrying out the provisions of the German insurance law of 1901.

Drowned Baby in Chicago River.

Chicago, July 8.—Mystery surrounds the identity of a well dressed man who has thrown a six-months-old baby into the north branch of the Chicago river near the Webster avenue railroad bridge. The baby was drowned and its body was recovered by the bridge tender, who witnessed the act and fished the baby out with a pole. Two men saw the deed, but the child murderer escaped, although an attempt was made to catch him. The only clew the police have to work on is a description of the culprit furnished by the witnesses. He is believed to be the father of the child.

The Boss Worm Medicine.

H. B. Kumpe, druggist, Leighton, Ala., writes: "One of my customers had a child which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 119 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. Sold by W. M. Johnson.

Huntington Buys Whole Town.

Los Angeles, Cal., July 8.—A large deal in Beach property has been consummated, it is said, whereby for a consideration which is not made public, but which is known to amount into the thousands of dollars, Henry Huntington has purchased outright the holdings of the Redondo improvement company, the corporation which established that Beach resort. The effect of the deal is that Huntington has purchased the town of Redondo. The tract held by the Redondo Improvement company consists of nearly the entire town.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars' outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by all druggists.

To Start Big Iron Mill.

Sharon, Pa., July 8.—It was anounced officially today that the company's continuous sheet mill of the American sheet tin plate company at Sharon will be placed in operation next week. The mill is one of the most complete in the country and represents an outlay of about $1,500,000. It was built three years ago, but never operated. About 500 men will be employed.

Powers Case In Federal Court.

Louisville, July 8.—A special from Maysville, Ky., says that Judge Coehran, of the United States district court, has taken jurisdiction in the Caleb Powers case. This means that the case will be tried in the federal court.

Good for Stomach Trouble and Constipation.

"Chamberlain's Stomach and Liver Tablets have done me a great deal of good," says C. Towns of Rat Portage, Ontario, Canada. "Being a mild physic the after effects are not unpleasant, and I can recommend them to all who suffer from stomach disorder." For sale by all druggists.

Reciprocity In Business.

The owner of the Makepeace flour mills looked sternly at the provision dealer, who had for some years supplied the wants of his household.

"Those last apples you sent us were good," he said, with a keen eye fixed on the other man's face, "but they were in undersized barrels, my wife tells me, smaller than ever before. She says that the three barrels would scarcely make two and a half of the proper size. How do you account for it?"

"I can't," said the provision dealer, with apparent distress of mind. "I swan I can't! I just had my wife send me down three of your barrels that we've been getting flour in and just packed the apples in and headed 'em up with burlap, for says I to her, 'I believe in reciprocity, and I'm bound he shall have just as good measure of apples as we get of flour,' I says. Now, don't it beat all?"

The Caves of Kentucky.

Kentucky possesses in the Mammoth cave one of the natural wonders of the world; but, while this is the largest of its caverns and, so far as known, the largest in the world, there are hundreds of others of inferior but still of great size. In Edmonson county alone there are said to be more than 500 caves and, in addition, 4,000 sink holes of various sizes and depths. In Colossal cavern, discovered in 1895, what is believed to be the largest stalagmite in the world has been named "Henry Clary's monument." It is ninety feet high and thirty feet thick at the base. The cavern is only about a mile and a half from the the great Mammoth cave and is said to be in some respects even more wonderful than the latter, though not so large.

Boston, July 8.—President Roosevelt's eyes are wonderfully improving in spite of all that they have to go through with in the strenuous pace," declared Dr. Thomas Morgan. STRIKE LIKELY TO SPREAD.

Drivers of Baggage and Parcel Wagons in Chicago May Quit.

Chicago, July 8.—A spread of the teamsters strike on baggage and parcel companies was possible today as a result of the action of the teamsters joint council in directing all baggage and parcel delivery wagons to refuse deliveries to strike-bound concerns.

While the joint council was in session the department store drivers' union voted overwhelmingly to continue the strike indefinitely. Action concerning deliveries by the express companies was taken as a result of the anouncement by Judge Holdom today that he would issue injunctions against compelling them to deliver goods to "struck houses." Although the express companies had been endeavoring to prevent a clash with their drivers, it was believed they could not avoid asking them to make deliveries to strike-bound firms. The firms that would be affected by the injunction employ about 45 drivers. The joint council also decided to send out 2,000 strikers today to compel union teamsters always to make contributions to the strike fund.

The Herbine treatment will cure all these troubles. 50c bottle. Sold by W. M. Johnson.

The immense audience which witnessed the presentation of a portion of Hayden's Creation last evening by the Cutter-Morrison Concert Company, went home convinced that in a musical way this company is far ahead of anything that ever visited Jacksonville. One has to hear Mrs. Morrison to fully appreciate the bird-like range, and the delightful way she rendered her solos last evening will long be remembered.—Times-Union.

This company will appear in this city Tuesday evening under the auspices of the Twentieth Century Club, for the benefit of the public library. It will be one of the finest musical attractions ever heard here, and no doubt will be well attended.

J. J. Finley Chapter.

A most enjoyable occasion was the meeting of the J. J. Finley Chapter, U. D. C., on Thursday last at the residence of Mrs. Chas. C. Hudson. After disposing of the routine business, a well prepared program consisting of music and recitations was rendered. Various solos and duettes were beautifully rendered by the Misses Wimberly, Padgett, Douglass, Dupree and Gerrald. These were interspersed with recitations by Miss Mabel Voyle, who showed that she was quite in her element. The entire program was immensely enjoyed and at the close delicious refreshments were served.

In addition to the members of the Chapter, quite a number of other guests were present, and all bade the hostess farewell assured that she knew how to entertain most charmingly.
